

Adult Enteral Feeding

Nasogastric tubes

Nasogastric tubes

NUTRICAIR adult feeding catheters are made in radiopaque polyurethane which facilitates easy radiological inspection without the need for injection. They also have a transparent stripe enabling easy observation. Measurements are marked numerically and in centimetres every 5 cm from 20 cm to 105 cm. Silicon-lubricated both inside and out, they do not require any preparation before use. Each marking (Charriere) can be easily spotted thanks to the colour coding of the funnel.

Levin type Nasogastric tubes

Special features: 4 opposite lateral perforations

Charriere	Funnel colour	Part number 110 cm without guide	Part number 110 cm with guide	Part number 130 cm without guide	Part number 130 cm with guide	Packing	Bulk packing
CH06	Light green	AL106	AL106G	AL506	AL506G	20	320

CH20	yellow	AL120		AL520		20	320
CH22	neutral	AL122		AL522		20	320

Weighted Nasogastric tubes

Special features: - Tungsten weight
- Nutrients pass through the olive tip
- 110 cm long

Charriere	Funnel colour	Part number without guide	Part number with guide	Weight	Packing	Bulk packing
CH06	Light green	AL206	AL206G	1.1 gr	20	320
CH08	blue	AL208	AL208G	1.1 gr	20	320
CH10	grey	AL210	AL210G	1.7 gr	20	320
CH12	white	AL212	AL212G	2.8 gr	20	320
CH14	dark green	AL214	AL214G	4.0 gr	20	320

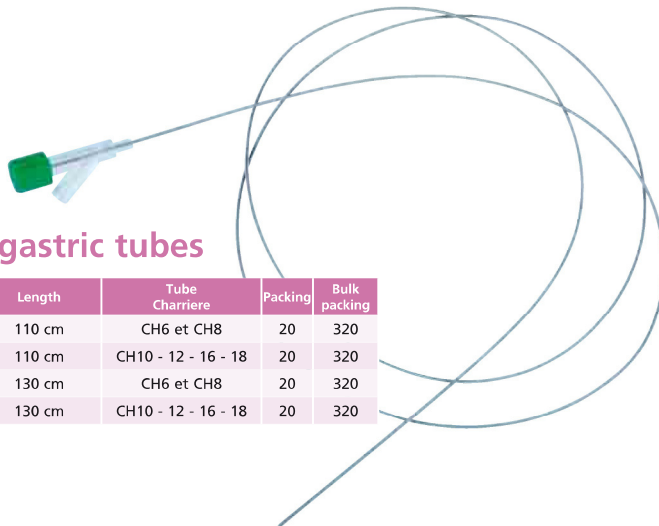

Bolus Nasogastric tubes

Special features: - Tungsten weight
- Nutrients pass through the olive tip
- Heavier weight and bigger olive tip to facilitate its setting-up and ensure that it stays in place
- 130 cm long
- Part numbers available with guide only

GU330	1.3 mm	130 cm	CH10 - 12 - 16 - 18	20	320

Salem-type nasogastric suction tubes

Salem-type nasogastric suction tubes with a polyurethane radiopaque double chamber which facilitates easy radiological inspection without the need for injection. They also have a transparent stripe enabling easy observation. Measurements are marked numerically and in centimetres every 5 cm (from 20 cm to 105 cm). 8 opposite lateral perforations. Silicon-lubricated both inside and out, they do not require any preparation before use. Each marking (Charriere) can be easily spotted thanks to the colour coding of the funnel.

Charriere	Funnel colour	Part number length 110 cm	Part number length 130 cm	Packing	Bulk packing
CH10	grey	AS210	AS410	20	320
CH12	white	AS212	AS412	20	320
CH14	dark green	AS214	AS414	20	320
CH16	orange	AS216	AS416	20	320
CH18	red	AS218	AS418	20	320
CH20	yellow	AS220	AS420	20	320
CH22	neutral	AS222	AS422	20	320

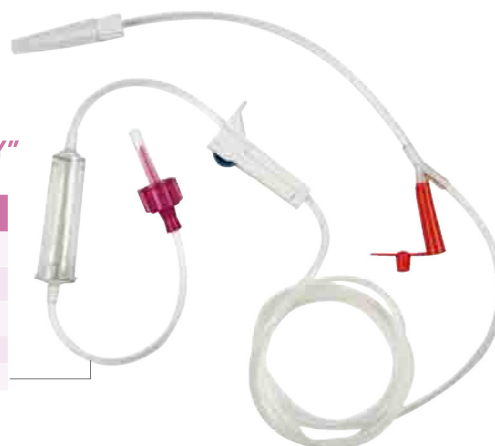

Administration sets

Administration sets Gravity feeding sets with rinsing "Y"
