

You can't whitewash it

All things are poison and
nothing without poison,
only the dose makes that a
thing is not a poison.
Paracelsus

Drug Multi Tests ^{Rapid}

for
Drug diagnostics
Medication diagnostics

The drug tests are used in public institutions, clinical laboratories, drug clinics, prisons and companies.

Our **Multi Tests** are available as Multi-Dip, Multiline, and as a Saliva test.

All drug tests as well as the Drug Adulteration Test are to serve rapid and qualitative detection of drugs and their manipulations in human urine or saliva.

in only
few
minutes

Overview of benefits

Individual combinations

Large variations of all common drug and medication parameters

Quality through integrated quality control management

Continued successful participation in ring trials of German Society for Clinical Chemistry and Laboratory Medicine

Drug Multi Tests

Drug Multi-Dip Tests*

Samples: Urine			Parameter combinations												
Content	Parameter / Test	Art. No.	AMP	BAR	BZD	COC	THC	MET	MTD	MOR	PCP	TCA	MDMA	BUP	EDDP
10 pieces / PU	3	0270025													
	4	0270021													
		0270027													
		0270049													
	5	0270022													
		0270028													
		0270029													
		0270052													
		0270056													
		0270062													
	6	0270039													
		0270050													
		0270055													
	8	0270061													
		0270031													
		0270042													
	10	0270047													
		0270098													
		0270099													
		0270100													

* Individual combinations are on request. Packaging units (PU) include documentation blocks and urine cup.

MultiLine Test*

Samples: Urine			Parameter combinations												
Content	Parameter / Test	Art. No.	AMP	BAR	BZD	COC	THC	MET	MTD	MOR	PCP	TCA	MDMA	BUP	EDDP
10 pieces / PU	10	0271099													

* Individual combinations are on request. Packaging units (PU) include documentation blocks and urine cup.

Saliva Tests

Samples: Saliva			Parameter combinations												
Content	Parameter / Test	Art. No.	AMP	BAR	BZD	COC	THC	MET	MTD	MOR	PCP	TCA	MDMA	BUP	EDDP
25 pieces / PU	6	0272003													

* PU: Packaging Unit

Urine Adulteration Test

Samples: Urine		Parameter					
Inhalt	Art. No.	CRE	NIT	GLUT	pH	SW	OXI / PCC
25 pieces / PU*	0270000						

* PU: Packaging Unit

Spec. Cut-Off Values [ng/ml]

AMP: 1000	BUP: 10	COC: 300	MDMA: 500	MOR: 300	OPI: 2000	THC: 50
BAR: 300	BZD: 300	EDDP: 300	MET: 500	MTD: 300	TCA: 1000	TRA: 100

Parameter abbreviations

AMP: Amphetamine	BZD: Benzodiazepine	MDMA: Ecstasy	MTD: Methadon	THC: Cannabinoide
BAR: Barbiturate	COC: Cocain	MET: Methamphetamine	OPI: Opiate	TRA: Tramadol
BUP: Buprenorphine	EDDP: EDDP	MOR: Morphine	TCA: Tricyclic antidepressants	
CRE: Creatinine	NIT: Nitrite	GLUT: Glutaraldehyde	pH: pH value	SW: spec. Weight
				OXI: Oxidants
				PCC: Pyridinium Chlorchromate

Immunologic Rapid Tests

"Advantages of the quick diagnostics are an easy use, a low time needed and a quick result: Mostly, the test takes only few minutes. Thus, life-saving immediate measures can be initiated faster - for instance, in the emergency medicine. Viral and bacterial causes can be detected on-site - then the doctor can decide on the right therapy."

ÄRZTE ZEITUNG Online
